### PROFILE

Motivated Full-Stack Development Trainee with hands-on experience building responsive web applications and practical projects using modern front-end and back-end technologies. Currently developing skills in JavaScript, React, Node.js, PostgreSQL, PHP, APIs, and responsive design through structured training and independent project work.

Passionate about problem-solving, learning new technologies, and developing clean, user-friendly applications. Currently seeking an entry-level opportunity in web or application development.

### EXPERIENCE

#### Full-Stack Development Trainee - IT Career Switch 2025

- Building responsive front-end and full-stack projects using modern web technologies
- Working with APIs, databases, GitHub, and deployment workflows
- Developing practical experience with JavaScript, React, Node.js, PostgreSQL, and PHP
- Strengthening debugging, testing, and problem-solving skills through project-based learning

#### Cyber Security Intern - NuYew Tech Academy 2023

- Achieved CompTIA ITF+ and CompTIA A+ certifications
- Developed understanding of networking, Linux, hardware, and security fundamentals
- Worked with technical troubleshooting and core IT concepts

#### Distribution Operative - Games Workshop 2018

- Working in a fast-paced warehouse environment requiring accuracy and teamwork
- Supporting operational efficiency and workflow organisation
- Developed strong communication, reliability, and problem-solving skills
